Calls may be recorded for training or monitoring

Dear Applicant

I am very pleased to hear that you have expressed interest in joining our team as an Engineer at Waverley Borough Council.

Waverley is one of 11 borough councils in Surrey providing a range of services to the local community including housing, housing benefits, waste removal, car parks and leisure facilities.

We are very proud of our Property and Engineering Team who provide a very valuable service to the rest of the Council. Given the range of functions the Council delivers the team has a wide remit covering drainage, dams/reservoirs, car parks, street furniture, and corporate buildings as well as acting as internal consultants to operational services within the Council.

This post is based in our main office in Godalming. The Property and Engineering Team is a small unit consisting of the Team Manager and two Engineers. We will be looking for a candidate who is adaptable with a flexible approach to work.

Waverley is a well run Council and you will find a positive and welcoming environment should you choose to join us. I wish you good luck with your application.

Yours sincerely

David Allum
Head of Customer and Corporate Services
