

Role profile

Here's more about the job!

Role/s	Head of Technology	Date Prepared	August 2019
---------------	--------------------	----------------------	-------------

Your Team

- The IT team is responsible for developing, delivering and maintaining the Council's IT, including hardware support and provision, applications and system design and specification, management and delivery and telephony and network provision and support. It is a key to enabling transformation and providing the levers for change across the Council.

Your Customers

- Staff within the Council
- Elected Members
- Suppliers, Consultants and Provider Frameworks
- Other Local Authorities, Town and Parish Councils
- Government Departments and agencies
- Regulators, industry associations and stakeholder bodies

Your Role

- Lead the technical team to collaboratively deliver a forward thinking service.
- Provide strategic and system wide leadership supporting services to make best use of IT and maximise opportunities created through technological change.
- Identify innovation opportunities and trends, applying ambitious, joined up solutions.
- Contribute to developing and maintaining effective supplier relationships and contract performance and the delivery of major capital projects.
- Be an advocate for continuous improvement and corporate change, leading by example in line with the Council's values.
- Act as a credible advisor on data and information governance to keep the Council and its customers safe and compliant.

Health and Safety

- Visual display - regular use.

Work Pattern

- Standard Monday to Friday with flexibility subject to business needs.

Work Related Travel

- Limited.
