

Falkland Islands Government – Job Description

Job Title:	Building Advisor		
Department:	Planning & Building Services	Section:	Planning & Building Services
Reports to:	Head of Planning & Building Services		
Grade:	Falkland Islands Government Grade - C	Job Code:	606BA1

Job Purpose

To administer, promote and advance the Islands building control service and be the primary point of contact for professional advice and guidance for all matters pertaining to the Building Regulations.

Main Accountabilities:

- Assess and determine building permit applications against current Falkland Islands Regulations or other international standards/guidance for compliance in a timely manner.
- Prepare reports on building control matters (including recommendations and conditions for approval or reasons for refusal) for the Planning and Building Committee and the Executive Council.
- Undertake inspections of ongoing building works to enable Occupation/Completion Certificates to be issued on completion of works.
- Provide professional advice and guidance on large and small scale building projects across the Falkland Islands, and to act in a co-ordinating role with other Government Departments on building matters.
- Act as a point of contact, in conjunction with the Chief Fire Officer, on building related fire safety and provide professional advice on fire safety matters to colleagues across the Government.
- Keep full and accurate record of all site visits, inspections and interviews and provide clear audit trails for all decisions made, especially those which require professional judgement.
- Investigate breaches of the Building Regulations and instigate enforcement action works deemed to be non-compliant.
- Inspect buildings considered to be in a dangerous condition and, where necessary, advise on remedial operations to alleviate/remove the danger.
- Investigate and advise on the suitability of new building materials and methods to improve standards of construction taking into account geographic, environmental, and cost constraints.
- Act as technical advisor to the Historic Buildings Committee.
- Recommend and advise on changes to Falkland Islands Building Control legislation.
- Assist the Head of Planning & Building Services to discharge the duties placed upon them.

The job description is not an exclusive or exhaustive definition of your duties. You shall undertake such additional or other duties as may reasonably be required by FIG commensurate with your role and grade.

Falkland Islands Government – Job Description

Additional Information:

The Falkland Islands features an active construction sector and the Planning and Building Service received over 160 applications in 2019. These submissions covered a wide range of development from private dwellings to large commercial and institutional projects. The scope of work is varied and will involve working closely with both Government and private sectors.

The post-holder must be experienced in the interpretation and application of building legislation and be confident in the preparation and production of related documentation including reports, permits, and certificates. Experience with 'stick frame' style construction and steel frame warehousing will be an advantage to the successful candidate.

This role is office based with a regular need to visit building sites in Stanley and Camp. The post holder will need to be familiar with safe site working practices and be confident in exercising professional discretion at all times.
